

Did Richard get questions

Adrienne Vaupshas

There were two FIN Qs, Helene Buzzetti was like well if this economic measures document isn't even online how is TD freezing bank accounts, response was not super clear, said bank accounts will be frozen until the document is published, TD is not using this measure to freeze the account, but then said the regulations have been set, are in force, they will be published soon

And then Mia asked about crowd funding provisions and how we're defining crowdfunding payment services, how we're defining crypto currencies and how banks will be able to prove that the funds were involved in these blockades, what kind of proof do they need to show

And then Richard starts with "They just to be clear, are going to be covered under the emergency economic measures order."

The document that is not published
